For over a decade, Command® 3ME Microencapsulated herbicide has lived up to the strict screening requirements used by FMC to identify a formulation that would reduce volatility of the active ingredient clomazone and prevent off-target whitening effects caused by volatility from field applications. Today, other clomazone products claim to have met the same standard FMC has set for Command® 3ME. Can other “same as” formulations of clomazone live up to these same standards? The answer is no, not all micro-encapsulated herbicides are the same.

Command® 3ME reduces volatility vs. other clomazone products on the market today. (See Battelle Memorial Institute study below)
As an added bonus to rice growers, FMC is pleased to introduce Command® 3ME Herbicide Acre Incentives to help growers to spend less and protect more. Command 3ME is the South’s #1 preemergence rice herbicide for protecting rice from annual grasses. Applied pre-plant, at-plant, and delayed pre, it establishes the most effective base for season-long protection and maximum yields. Not to mention reduced off-target movement due to lower volatility for added peace of mind.

- Command® 3ME Microencapsulated Rice Rebate for growers. Receive $1.00/Acre rebate* on Command 3ME herbicide.
- Get an additional $0.50/Acre for matching non-rice acres with Authority® Elite or Anthem® herbicides.
- Protect rice from annual grasses, including barnyardgrass, sprangletop, broadleaf signalgrass and crabgrass.
- Apply pre-plant up to the five leaf rice stage and establish a base herbicide protection program.
- Novel mode of action is excellent for weed resistance management.
- Use on both Clearfield® and conventional rice.
- Proven to have dramatically lower volatility than competitive clomazone products.

*Purchase Command® 3ME herbicide from January 18 to July 31, 2016 (with a program rate of 13.0 oz/A).

John Deere Financial
Providing crop protection solutions is just one way FMC helps you harvest more from every acre. The other is by supporting you with services such as FMC Essentials Financing.

Multi-use accounts are a service of John Deere Financial, f.s.b.

With Command® 3ME herbicide, you not only get broad spectrum grass control, you also get the lowest volatile formulation of clomazone product on the market today. Add in the rebate, John Deere Financing and there’s more reasons than ever to start this season with Command 3ME Microencapsulated herbicide.
