Sentrallas® Herbicide

Realize broadleaf weed control.

A new, unique, liquid, in-crop cereal herbicide that provides tank-mix flexibility for control of your problem weeds.

Designed for superior cereal protection

- Powerful control of key weeds, such as kochia (including ALS resistant), wild buckwheat, redroot pigweed, mustard species, catchweed bedstraw and Russian thistle.
- Simple to use and easy to handle.
- High performance on large weeds including wild buckwheat.
- Excellent crop safety over a wide application window.
- Unique new liquid chemistry combination from FMC.

Weeds controlled/suppressed

See product label for complete list of weeds controlled or suppressed.

Valuable resistance-management tool

- Multiple modes of action built in (two different groups, two active ingredients).
- Provides the flexibility to spray early or late and still have powerful control.
- Protects your cereal crops to maximize yield potential.
- Multiple options for tank mixing.
- Flexible crop rotation.

Application information

Application timing: two-leaf to flag leaf
Rate: 7 fl. oz./A to 14 fl. oz./A
Rainfast: one hour
