

TOPGUARD EQ
FUNGICIDE

BROAD SPECTRUM DISEASE CONTROL IN PEANUT

UNIQUE PROPRIETARY FUNGICIDE COMBINING A STROBILURIN WITH FMC'S PATENTED FLUTRIAFOL FUNGICIDE. PROVIDES BROAD-SPECTRUM DISEASE CONTROL INCLUDING LEAF SPOTS, RUST, AND STEM ROT

Late Leaf Spot Control in Peanut, J. Grichar, TAMU (Severity 1-10 scale)

Product Attributes	Benefits
Superior Activity	Combines benefits of highly systemic and long lasting Group 3 fungicide; Flutriafol plus top of class Group 11 strobilurin fungicide; Azoxystrobin.
Systemic Activity	Topguard EQ fungicide rapidly moves through the xylem to new leaves, keeping fungal diseases out of the canopy, protecting yields and quality.
Resistance Management	Multiple modes of action support strobilurin resistance management programs.
