

Capture® LFR® Insecticide + VGR™ Soil Amendment

WHEN AN 11 BU/A YIELD ADVANTAGE ISN'T ENOUGH, NOW YOU CAN GET AN EXTRA 3-4 BU/A MORE.

Corn growers have made Capture® LFR® Insecticide America's first choice for boosting yields when in-the-bag protection isn't enough with yield increases averaging 11 bushels per acre. Adding VGR™ Soil Amendment helps boost yields an extra three to four bushels per acre.

Because you can't control the weather, it's time to adapt.

Beyond protection against corn rootworms and seedling soil pests, the addition of VGR Soil Amendment helps build bigger, fuller roots for maximum water efficiency.

Capture LFR Insecticide

Capture LFR Insecticide + VGR Soil Amendment

Quick Facts

- FMC patented LFR Technology combines easily in the tank with the wettable powder VGR Soil Amendment formulations specifically designed to mix in pop-up liquid fertilizers
- Reduces the amount of water required for plant growth
- Improves availability of nutrients in the soil, specifically phosphorous
- Improves overall plant vigor and stand uniformity at critical early growth stages
- Colonizes actively growing roots throughout the season for extended benefits

Assure yourself at least 600 more plants/acre.

A cold, wet spring doesn't have to throw a wet blanket on your yield potential. Now you can help assure yourself higher yields, starting with a better stand with at least 600 plants per acre better on acres treated with Capture® LFR® Insecticide plus VGR™ Soil Amendment.

Ask your retailer for details about the FMC Corn Plant Stand Assurance Program.

VGR Soil Amendment works with nature to create an improved, living seedbed.

VGR Soil Amendment contains a naturally occurring and specific strain of *bacillus licheniformis*. It grows and colonizes along roots and root hairs throughout corn's vegetative and early reproductive stages.

At the recommended use rates, approximately one trillion spores are delivered per acre.

+

Capture LFR Insecticide is a Restricted Use Pesticide.

VGR Soil Amendment is not a pesticide. Always read and follow label directions. FMC, Capture, LFR and VGR are trademarks and Investing in farming's future is a service mark of FMC Corporation or an affiliate. ©2016 FMC Corporation. All rights reserved. 16-FMC-0751 03/16

LFR = liquid fertilizer ready. Accept no substitutes.

Capture LFR Insecticide plus VGR Soil Amendment stays in suspension and won't settle in the tank. It mixes easily with starter

fertilizers and assures you the benefit of consistent, uniform application,

unlike many imitators that are shown to separate in solution with starter fertilizers.
